Transactions on New York Stock Exchange, However, Are Still of the Highly Professional Character.

By BROADAN WALL.

By International News Service NEW YORK, March 17 - Numerous advances to the minor industrials lent strength to the general list and gave firm one to many of the ralls.

Transactions in today's market still of the highly professional character in evidence for the last ten days, and while there was little public encouragement, commission houses began to advise the purchase of stocks.

Central Leather was active and strong with a gain of 1 5-8 carrying the price

today to relieve, except in a transient manner, the fear of a dry weather scare regarding wheat. The market closed firm, at a range varying from 1622 a shade advance. Corn finished with a gain of #@ic to ic, outs the same as last night and provisions unchanged to 21@

Reports of continued heavy winds and dust storms in southern Kansas were what renewed apprehension on the part of the wheat trade. As the official forecast gave no promise of any additional moisture, speculators who had early in the day taken to the bear side were more and more inclined to a reversal of judgment later in the session.

New crop features developed a noticeable tendency to be independent of the May delivery of wheat. The near-by month was under much greater selling pressure.

one pit leader changed 2,500,000 bushels of wheat from May to July.

In corn, the rapid depletion of western stocks led to a rally. The market at first had been easy as a result of favorable crop reports from Argentina. Oats were held down because of large primary receipts and owing to a heavy movement from Winnipeg to the east.

Improved support from commission houses put a little backbone into provisions. Trade as a whole, however, was light.

When the series opcoed the smallness of stocks at consuming centers created a strong demand, which only temporarily slackoned when immediate requirements were satisfied. Brisk competition was renewed and the market closed firm at 5 to 10 per cent higher than January. The vigorous buying of Americans, who purchased more than for some time past, was largely instrumental in the improvement. During the sales the home trade took \$3,000 bales, the centillance to 1,000 and America 17,000. There were 4000 bales held over

Present profits indicate that the directors will be justified in placing the common stock on a four per cent basis within the next six months, by which time it is expected the price of the stock will have advanced to 50.

Opening prices were confused by a sharp drop in Missouri. Kansas & Texas preferred, carrying the price to 422, the lowest since 1904, and this in the face of a recent statement by President Schiff that he "saw no reason why the regular dividend should not be paid." Unfortunately for stockholders official utterances regarding dividend action frequently prove misleading. The market prices of the stock clearly anticipated the passing of the dividend.

American Can was taken in hand and advanced to 30% American Idnseed Oil was moved up easily on a few trades. Studebaker common gained 1½ and the preferred 1½. Harvester was strong and Sugar made a further recovery to 101½. Reports from the copper trade indicate a renewal of buying by consumers and copper shares responded with advances. California Petroleum rose easily and the equipment stocks were steady at slight gains. Attention has been directed to Colorado Fuel, which, so far has not begun to anticipate the improved position of the property. With a gain of 1½ the shares closed strong at 33½. A substantial advance is anticipated.

New Haven rose sharply on the news from Washington that a receivership for the property will be avoided.
